DAY 01 – SALTA

Arrival to Salta airport and transfer to the hotel.

The province of Salta is one of the most chosen destinations in Argentina, our culture, gastronomy, hospitality and landscape. Salta combines the attractions of a vast territory that encompasses all kinds of landscapes, from the aridity of the Puna desert to the lush green of the jungle.

Salta has different and rich protected ecosystems in Provincial Reserves and the three National Parks, Baritú, Los Cardones and El Rey, where the tropical forest and the wild high altitude landscape coexist.

Each town or city in the province offers gastronomic places with a great variety of typical food. You can also find national and international gourmet food.

Its landscapes, its colors, the mountain breeze and a transparent sky, make the Salta Wine Route the chosen place to enjoy historical towns, vineyards, wineries and wines.

HD CITY TOUR

The foundation of the city of Salta dates back to 1582, made by a Spaniard coming from Peru. Its architecture is of a well-preserved colonial nature, which makes the city captivating because of the vigorous contrast between its colonial buildings and its modern architecture. It is the largest city in the north of the country, which offers a variety of attractions to explore the surroundings or even to practice adventure sports.

Salta is home to some architectural gems, such as the Convent of San Bernardo, the Church of San Francisco and the Cabildo (former seat of the Spanish colonial authorities) where the 'Museo Histórico del Norte' works. From the top of the San Bernardo Hill you can enjoy a panoramic view of the city, with its residential areas and also the monument to General Martín Miguel de Güemes. (Cable -car not included)

In the surroundings of the center, we visited an interesting crafts market, where crafts of all

kinds converge with a unique variety. This building was a Jesuit home. For all these reasons, it is undoubtedly said that we are in one of the most dazzling cities in Argentina. Salta in Aymara language Salta means "the most beautiful".

Breakfast at the ranch.

Departure to Humahuaca. The trip begins in the House of Jasmine Ranch with a day trip to the north to enjoy beautiful landscapes. Through the access to Yala, we start the ascent and visit the famous Quebrada. Little by little the vegetation will disappear to give way to the Quebrada landscape, defined by its singular stratifications that fill the view with its colors and shapes.

In Purmamarca, we stop for about 30 minutes, contemplating a walk through the town and its attractions. It is a small town in La Quebrada, with its famous "Cerro de los siete colores" (Hill of the Seven Colors). You will discover a small chapel dedicated to Santa Rosa de Lima, in colonial style made of

adobe and a small craft market. In the park, vendors offer wooden sculptures, hand-woven carpets and all kinds of medicinal herbs.

Then we continue to Maimará and Tilcara, where passengers are taken to the famous 'Pucará'. This ancient native fortress is framed by beautiful polychrome mountains that, in addition to the guide's historical explanation, will allow you to contemplate the thistles of the archaeological site. Then, we will visit the Archaeological Museum of the town.

Around midday, the tour continues to the city of Humahuaca, transposing the Tropic of Capricorn and many other geological formations that make the trip unique. We walk along the beautiful characteristic colonial streets, among which we find the central square and, around it, the Independence monument, the Cathedral and the City Hall, among others. We take a break for lunch there (**lunch not included in the tour**).

For the return to Salta, we have some very interesting activities: visiting the small chapel of Uquía, which shows a strong colonial heritage expressed in its old architecture from the 16th and 17th centuries. Valuable pieces of colonial art are exhibited, together with pieces from the old Cuzco School: colonial baroque, golden altars or religious carved wood sculptures from the 17th century.
